Corporate Destruction Solutions (CDS) announces the start-up of its new state of the art, on-site mobile hard drive /media shredding service. CDS is proud to provide New England with the most secured, on-site hard drive/media destruction service available. This minimizes the potential of security risk shipping to off site shredding companies. We believe that on-site hard drive shredding and other media is the safest system in the country. You never lose custody of your media it is done at you facility. Our personal are licensed, bonded and insured. All personal must pass a background check, substance abuse testing and sign a confidentiality agreement.

CDS provides the only solution that guarantees the destruction of electronic data that may have otherwise been left behind. Our mobile hard drive shredding unit goes directly to you facility. The unit is self-contained, generating its own electrical power. The hard-drive shredding utilizes state of the art technology yielding the fastest, most efficient destruction of hard drives and other media. The mobile shredding unit is equipped with closed circuit television making it possible to watch the destruction on the truck or from your desktop computer if your facility has a wireless internet connection. Each hard drive serial number is scanned and documented before the shredding process. After the shredding process the customer is issued a certificate of destruction and a copy of the serial numbers of each hard drive.

If requested by the customer a copy of the surveillance tape will be mailed with the date and time of the destruction.

CDS provides the only solution that guarantees the destruction of the electronic data on out of date hardware. Like the shredding machines corporations have been using for years to destroy paper documents, CDS uses a specialized equipment to shred media containing electronic data. This is the safest, surest and most cost effective method to ensure your corporation and employees are safe from cyber thieves.

Corporate Destruction Solutions will:

- Bring the specialized shredding equipment to your facility.
- Issue a certificate of destruction with all the scanned serial numbers / bar codes of the hard drives that have been shredded.
- Provide a DVD of surveillance of destruction of each hard drive.
- Eliminate overhead associated with hiring workers to operate specialized equipment and cut costs associated with other solutions.
- Once your hard drive have been shredded they are then recycled, making our process environmentally friendly.

Hard Drive before and the hard drive after.

Shredding chamber discharge side shows rugged cutters

Our patent pending process helps our customers be compliant with the following regulations:

- HIPPA (Health Insurance Portability and Accountability Act)
- Sarbanes-Oxley Act
- Gramm-Leach-Bliley Act (GLBA)
- Bank Secrecy Act (BSA)
- Patriot Act of 2002
- Identity Theft and Assumption Deterrence Act
- US Safe Harbor Provisions
- FDA Security Regulations (21 C.F.R. part 11)
- PCI Data Security Standard
- Various state laws

Corporate Destruction Solutions state of the are shredding system is the safest on site hard drive/media destruction service in the country.
